bizhub C652/C552

superior color, functionality and performance

Digital information continues to bring ground-breaking changes to business workflow – and the bizhub C652/C552 can help you make the most of it.

Speeding your color output, at up to 50 ppm. Printing in cost-effective B&W at up to 65 ppm, for everyday document demands. Sharing data with fast, flexible scanning and distribution. Adding powerful, scalable options for color management, auto finishing, high-volume fax and more. All with simple touch-screen operation, superior security protection, seamless network integration and streamlined productivity.

Business by design, better and faster, to save you time and money – that's the beauty of bizhub.

bizhub

Large 8.5" color touch-screen. User-friendly and intuitive, the bizhub C652/C552 control panel features simple menus, shortcut keys, even thumbnail document previews you can check before you print to save paper by avoiding errors.

InfoLine™ status display. You'll have improved image quality, with 1800 dpi equivalent x 600 dpi – smoother color gradations, richer tonality and superior color graphics.

Access for all. In compliance with Section 508, the bizhub C652/C552 are built with tilting control panels to accommodate wheelchair-bound employees, blue LED function key lights that are easier to see and smooth-sliding paper drawers with easy-grip handles.

Green technologies.

With power saving mode, low-temperature toner fusing to save energy, high toner yield and green manufacturing technologies, the bizhub C652 and C552 are designed in accordance with Konica Minolta's award-winning practice of assessing environmental impact throughout the life cycle of every product.

Center-office design.

Konica Minolta's innovative approach to document system design begins with a sleek dark cabinet that looks great from any angle, so it deserves a place in the center of your workflow for quick access to all its power and productivity.

bizhub C652/C552

color that increases your power to communicate

Color documents communicate with extra impact. Attract greater attention. Improve your image. Make information more accessible, more memorable and more persuasive.

That's why today's leading businesses demand high-speed, high-quality color – and spectacular bizhub color will help you create more effective mailers, brochures, reports, presentations, even training manuals and business forms.

The secret? Exclusive Konica Minolta technologies: the superior resolution of Simitri® HD toner, the built-in power of the Emperon® Print System and the unique innovations that enhance color reproduction and maintain color stability without compromising color output speed.

Faster is better. In addition to high-speed 50 ppm color and 65 ppm B&W output, the bizhub C652 gives you scanning at up to 78 originals per minute and warm-up time of just 30 seconds. The bizhub C552 provides the same fast scanning and warm-up time, with 45 ppm color and 55 ppm B&W output speeds.

Whisper-quiet operation. Low-noise performance in both print/copy and standby modes helps make your office environment calmer and more productive.

Animated operating procedures. Konica Minolta has incorporated animated screens to further increase the user friendliness and simplicity of bizhub models.

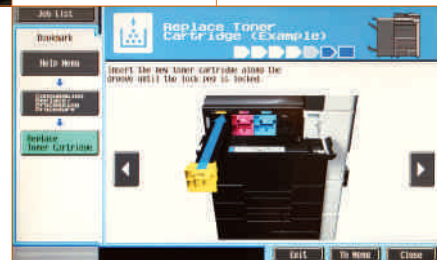

Pulverized

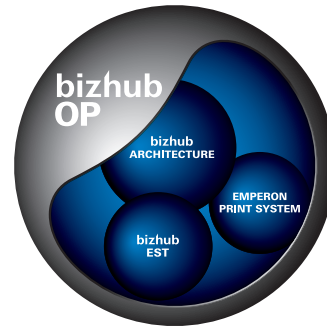

Simitri HD
High Definition Polymerized Toner

Simitri HD Toner. With finer, more uniform particles and low-temperature oil-less fusing, Simitri technology creates sharper detail, more legible text, improved halftone definition and color documents that won't fade, crack or peel.

Greater economy and convenience. 10% higher color toner yield and new high-capacity B&W toner cartridge help lower your total cost of ownership. You can replace toner on the fly, without interrupting your print/copy run – and Konica Minolta makes recycling toner easy.

bizhub OP. The heart of every bizhub, it powers the Konica Minolta approach to MFP performance: sophisticated functions, simple operation, seamless networking.

bizhub Architecture. For smooth operation, energy-saving performance and less need for operator training, the bizhub C652/C552 consolidates major functions on uniform processing modules – not separate circuit boards.

The Emperon Print System. Built-in Emperon printing gives you full print/copy/scan functionality, with Windows Vista drivers, PCL6/PS3 emulation and native XPS (XML Paper Specifications) interpreter.

"MyTab" does it your way. From the print driver on your PC, you can customize a one-click tab that saves your preferred print settings for quick access.

3rd-party software integration. With bizhub Extended Solution Technology (bEST), your bizhub is ready for integration with print management, variable printing, cost control and other specialized software.

Industry-leading image stabilization – with near 100% productivity.

New advancements in color reproduction. You'll have improved image quality, with 1800 dpi equivalent x 600 dpi – smoother color gradations, richer tonality and superior color graphics.

Higher reliability, longer life. Imaging unit and internal components are redesigned to work even better and last longer – with separate black drum and developer unit for long life, improved fusing unit, more durable paper separation system, and new double-cleaning transfer belt system for improved performance.

WebDAV online file management. Support for WebDAV (Web-based Distributed Authoring and Versioning) makes it easy to manage server files and folders, identify authors and dates, lock documents and track revisions.

IPv6 support. The next-generation protocol that increases IP addressing power and security by giving every networked bizhub device its own IP address.

Gigabit Ethernet. Simple connections that move information more quickly and reduce traffic demands on your network.

bizhub C652/C552

rapid distribution with more powerful options

Every business handles information differently. No two projects require the same workflow. With the bizhub C652/C552, you'll have the power to move documents and data in any form to more destinations in less time.

You can scan in color at higher speed. Distribute documents with greater flexibility. Store and share information on a standard 250 GB hard disk drive. Scan and print from an external USB drive. Copy oversized originals. Receive and redirect faxes, with Color Internet Faxing. Print and finish documents in-house and on-demand, with automated ease.

Whatever each job requires – that's what your bizhub can provide. And because one bizhub can do more work in less time, you can consolidate your document system and eliminate redundant desktop or legacy analog devices.

Convenient USB transfer. More convenient USB access on the front of your bizhub makes it easy to scan files to and/or print documents from a thumb-drive device.

Standard 250 GB HDD. For high-capacity document storage on board your bizhub C652/C552, with User Box functionality for individuals, departments, workgroups, even separate projects.

Color internet faxing. The bizhub C652/C552 support high-quality color faxing via the Internet, using industry-standard "RFC3949 profile C (TIFF with JPEG Compression)" color formatting that preserves accurate color values in compatibility with other manufacturers' devices.

High-volume fax. A super G3 fax option gives you all-in-one productivity – with IP address faxing, PC faxing, auto forwarding and quick access to hundreds of auto-dialing locations, plus a dual-line option to double your input and output capacity.

bizhub Send function. Perform multiple tasks with minimum keystrokes – for example, by scanning to Email, faxing and storing while simultaneously saving files to SMB or FTP.

i-Option LK-101 v.2: Scan to SharePoint, access Internet/Intranet content with AJAX support for JavaScript and XLM applications, manipulate User Box files, preview PDF files with built-in Adobe Acrobat Reader LE.

i-Option LK-102: Add government-level AES 128-bit encryption, apply additional IDs and digital signatures to verify authenticity, encrypt passwords, use Private Key security access to safeguard encrypted documents.

IC-412 Fiery Image Controller. An advanced image control option for graphics-intensive environments, with sophisticated color management capabilities and a wide range of graphic arts features and color matching tools – including ColorWise Pro Tools and EFI Command WorkStation®.

i-Option makes things easy. Browse the web from your bizhub control panel, add new image control and security capabilities, speed your bizhub workflow and more.

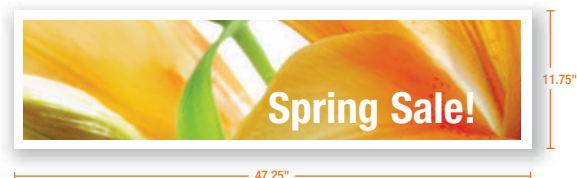

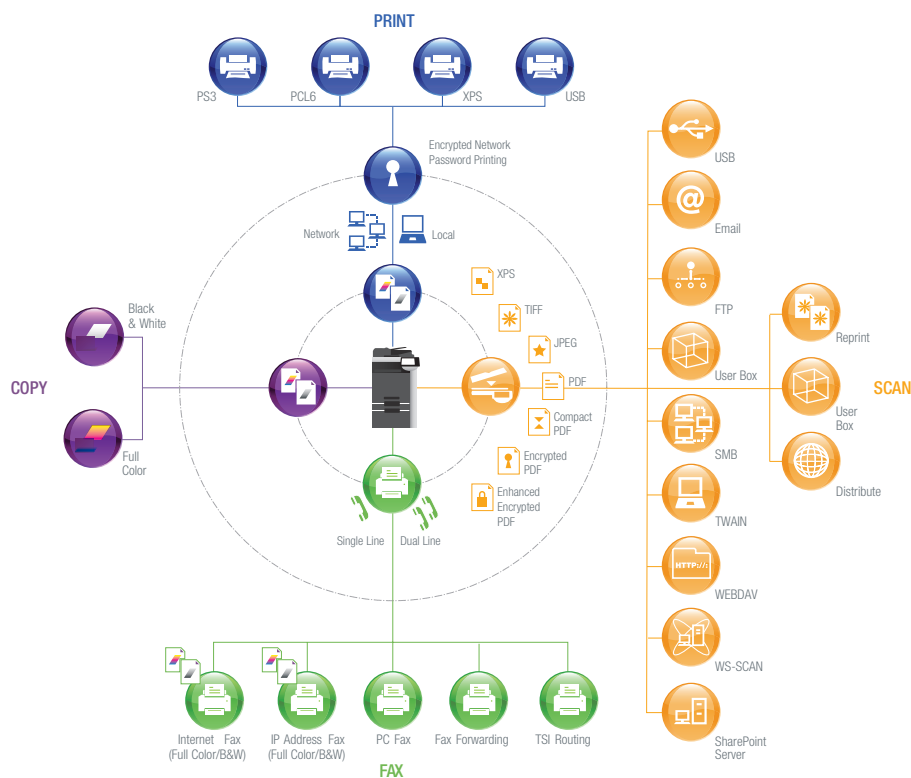

Faster, more flexible scanning. Faster scanning speed of 78 originals per minute moves information faster – for secure, one-touch Scan-to-Me and Scan-to-Home convenience and confidentiality – and many others including Scan-to-Email, Scan-to-FTP, Scan-to-SMB and TWAIN scanning from PCs.

Superior RADF performance. Real-time two-sided scanning and reliable, high-speed paper feeding lets you scan documents at up to 78 originals per minute – more than a page per second.

Versatile paper handling. You'll have up to 6,650-sheet capacity, plus the ability to handle a wide range of paper sizes from 4" x 6" to 12" x 18".

Banner printing.*

You can output full-color banners up to 11-3/4" x 47-1/4" – a unique bizhub advantage.

Modular finishing options.

All the options your business needs to grow, including:

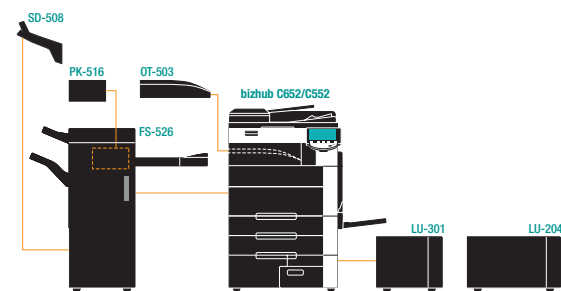

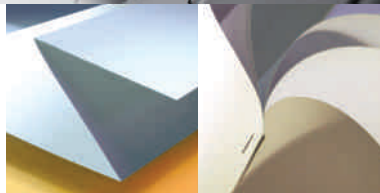

- ▶ **FS-526 Staple Finisher:** 100-sheet stapling, custom sorting, grouping.
- ▶ **SD-508 Saddle-stitch Unit:** center-staples and half-folds up to 20 sheets to create booklets of up to 80 pages; also supports tri-folding.
- ▶ **PK-516 Punch Kit:** adds 2/3-hole punch capability.
- ▶ **PI-505 Post Inserter:**** lets you add preprinted cover sheets or chapter dividers.
- ▶ **OT-503 Output Tray:** gives you additional sorting options.
- ▶ **ZU-606 Z-Fold Unit:**** Z-fold and insert spreadsheets or extra-wide pages into reports and presentations.
- ▶ **LU-204 Large Capacity Cassette:** holds up to 2,500 sheets of 8-1/2" x 11", 8-1/2" x 14", 11" x 17" or 12" x 18".
- ▶ **LU-301 Large Capacity Cassette:** holds up to 3,000 letter-size sheets.
- ▶ **JS-602 Job Separator Tray:**** separates print, copy and/or fax output.

High-output duplex productivity. Delivers duplex pages quickly and efficiently to save paper without slowing down your workflow.

Watermark function. Preset text can be applied to each page for your reference, to clearly indicate intended use or status of copies – urgent, private, etc.

Proof Copy/Print. Run off a quick test page before making a full print/copy run.

*Base C652/C552 Configuration with optional OT-503 Output Tray supports banner printing. Banner printing is not supported when FS-526 Finisher is installed. **May not be available at the time of launch.

bizhub C652/C552

enhanced security, seamless software integration

In today's networked era, document security is more important than ever – so you need advanced safeguards to protect sensitive information and control access to document devices.

You also need software that operates seamlessly within your network environment – allowing you to manage documents and devices more efficiently and helping IT professionals save time by controlling multiple devices from a single point.

Speed, seamless software integration, superior security and streamlined workflow. That's what your business can get from the bizhub C652/C552 – only from Konica Minolta.

IP Filtering. Registers the IP addresses of PCs that have access to your documents.

IEEE.802.1x security. For secure network communications, this function allows these devices to authenticate to a secure LAN.

SSL/TLS Encryption. Protects data during exchange from bizhub to LDAP servers and PageScope programs.

S/MIME Encryption. Supports S/MIME (Secure Multipurpose Internet Mail Extensions) encryption to protect Email exchanges.

HDD Lock. Applies password-protection locking to the hard disk drive, preventing it from being read even when removed.

HDD sanitizing. Erases all data on the HDD, overwriting data in compliance with U.S. military and international security standards – including seven-times overwrite protection (U.S. Air Force method: AFSSI5020).

Automatic Job Overwrite. Job-by-job data erasing automatically overwrites your HDD up to three times, in compliance with standards for the U.S. Department of Defense (DoD 5220.22-M).

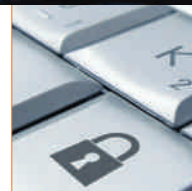

Standard HDD Encryption. Automatically protects data stored on your bizhub hard disk drive by encrypting data so it cannot be read by unauthorized persons.

Optional HID Authentication Unit. For fast, secure access to bizhub MFP functions, the AU-201H uses familiar HID Proximity cards.

Optional Biometric Authentication Unit. Recognizes users based on scanned finger vein patterns for speedy "touch and print" convenience.

User Authentication. Selectable for printing, scanning, faxing and User Box functions – with users identified based on the Active Directory Server, NTLM V1 or V2 Server, NDS Server, LDAP Server or built-in bizhub authentication functions.

bizhub Secure Print. Set password security locks to protect sensitive documents – job estimates, employee evaluations, salary reports, sales figures and projections.

Encrypted PDF. Protects information passing from PC to network.

Powerful PageScope® software. A full suite of software solutions for web-based monitoring and network control, integrated IP addressing and security, enterprise-system integration, personal document management.

PageScope Enterprise Suite. A server-based accounting solution in three seamless modules:

PageScope Account Manager tracks bizhub activities on a per-page basis for color and B&W based on individual users.

PageScope Authentication Manager provides secure password-protected log-in with multiple methods of identification.

PageScope MyPanel Manager customizes your bizhub display based on user log-in at any MFP on your network.

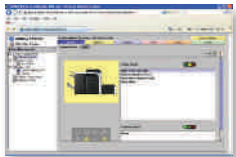

PageScope Web Connection

PageScope Web Connection. Gives each bizhub device its own "website" for status monitoring.

PageScope Net Care Device Manager. Combines bizhub and other MIB-compliant devices in a single network for IT management from a single point.

PageScope Net Care Device Manager

PageScope Web Print Assistant. Enables you to print documents from internal websites without cutting off the right edge of the page.

PageScope Log Management Utility. Maintains an offline log of your system activity.

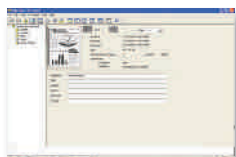

PageScope Print Status Notifier. Sends pop-up alerts to your PC screen to notify you that your job has finished printing, paper has run out or toner needs replacing.

PageScope Data Administrator™. Manages one-touch Email addresses, security passwords, device user lists, account tracking.

PageScope Box Operator. Allows you to download and access scanned data stored in User Boxes from your PC.

PageScope Workware™ (optional). A personal document solution for scanning, searching, thumbnail viewing, file conversion and more.

PageScope Workware

Optional external keyboard shown.

bizhub C552

AVAILABLE PRINT/COPY FUNCTIONS:

Account Track (1,000 accounts), Administration Mode, Auto Duplex, Auto Trapping, Auto Tray Switching, Bi-Directional Communication, Black Over Print, Color Modes & Functions (Auto Color/Full Color, Black & White Mode, Single Color Mode, 2-Color Mode, Color Adjustments - Brightness, Contrast, Saturation, Sharpness, Red, Green, Blue, Portrait, Hue, Density, Color Balance, Copy Density, Sample Copy), Copy Modes (Simplex/Duplex, 2-in-1, 4-in-1, 8-in-1, Book, Booklet, Booklet + Bind), Cover Mode, Creative Functions (Mirror Image, XY Zoom, Image Center, Base Color, Neg./Pos. Reverse, Image Repeat), Encrypted Network Password Printing, Energy Save Mode, Enlarge Display, Erase Mode (Border, Frame, Edge), Finishing (Group, Sort, Staple, Punch, Half-Fold, Center Staple and Fold and Tri-Fold), Form Overlay, Glossy Mode, HDD Encryption, HDD Job Overwrite, HDD Sanitizing, Image Adjustments (Color Matching, Pure Black, Auto ON/OFF, Color Balance, Screen Settings, Image Smoothing ON/OFF), Image Preview (Job Finishing Image Display, Engine Configuration Display), Interrupt, Job List, Job Reserve, Job Skip, LDAP, OHP Interleaving, Mixplex, Mix-Media, MyTab, Non-image Area Erase, Program/Recall Jobs, Paper Type Selection (Normal, Thick 1/1+, Thick 2, Thick 3, Thick 4), Print Modes (Simplex/Duplex, 2-in-1, 4-in-1, 6-in-1, 9-in-1, 16-in-1, Booklet, Booklet + Bind), Print from USB, Proof Copy, Secure Printing, Separate Scan, Text Enhancement, User Authentication (Up to 20 Authentication Servers) (Synchronize w/Account Track), User Box Function, Utility (Meter Count, Environment Setting, Default Setting, One-Touch Setting, Check Consumables Life), Watermarks, Zoom Selection

AVAILABLE SCAN FUNCTIONS:

Scan-to-Email, Scan-to-FTP, Scan-to-HDD (Scan-to-User Box), Scan-to-Me/Scan-to-Home, Scan-to-SharePoint, Scan-to-SMB (Scan-to-Desktop), Scan-to-USB, Scan-to-WebDAV, Network TWAIN, WS-Scan, Color Internet Fax

AVAILABLE FAX FUNCTIONS:

Autodialing (2,000 one-touches), Auto Memory Reception, Auto Reduction Printing, Broadcasting (maximum 605 locations), Bulletin Board, Duplex Transmission/Reception, Exposure Mode, Group Dialing (up to 500 one-touches per group), Image Rotation Transmission/Reception, Mailbox Transmission/Reception, Memory/Quick Dial, Overseas Transmission, Password Transmission/Reception, PC-Fax, Polling Transmission/Reception, Priority Transmission, Print Setting or Overnight Reception, Program Dialing (400 programs), Redial, Relay Broadcasting, Relay Transmission, Remote Reception, Timer Transmission, TSI Routing

APPLICATIONS:

Network & Device Management: PageScope EMS Plug-Ins, PageScope Net Care Device Manager, PageScope Network Setup, PageScope Data Administrator, Driver Packaging Utility, HDD Back-Up Utility, Download Manager (ICC Color Profile Utility), Log Management Utility, **User Tools:** PageScope Web Connection, PageScope Direct Print, PageScope Box Operator, PageScope Print Status Notifier, Web Print Assistant, Font Management Utility, Copy Protect Utility, Print Utility for Unix

MANAGEMENT TOOLS:

bizhub vCare support

OPTIONAL SOFTWARE:

PageScope Enterprise Suite: PageScope Account Manager, PageScope Authentication Manager, PageScope MyPanel Manager; PageScope Workware

Emperon Print System (standard):

PROCESSOR:
